A SINGLE LIGHT: ONGOING PROJECTS

A Single Light is currently developing a website that will include a unique open-access **database** that will collect information about organizations and services available to cancer patients and their family members.

FEATURES:

- ✓ The database will list outreach and service organizations whose focus is to help people affected by cancer
- ✓ It will provide addresses and phone numbers, hours of operation, a list of services and all the information necessary to gain access to the services of the organizations
- ✓ It will be easily searchable and equipped with a user-friendly and intuitive interface
- ✓ It will be presented free of charge and open to anyone with Internet access
- ✓ First release will focus on the Bay Area only, but later releases will encompass all of California and, eventually, the United States.

BENEFITS:

- ✓ The database is a unique project: no analogues of its scope and functionality exist
- ✓ The database will greatly increase accessibility to outreach and service organizations by providing a centralized location where people can search to find help that matches their needs
- ✓ The database will save hours worth of research , the time especially valuable for cancer patients and their families
- ✓ The database will help the users to make the right choices when searching for services

RELEASE DATE: February 1, 2006
